

A Dubai-based diversified investment holding company.

We take long-term ownership positions in businesses across eleven sectors - and help them grow as an active owner, not a passive shareholder.

03 Oil & Natural Gas	07 Agriculture	11 Commercial
04 Industrial	08 Tourism & Hospitality	

APPROACH

Thesis-driven underwriting

Every position is underwritten to a defined thesis and the same criteria.

Committee governance

Decisions are committed through a committee, never a single person.

Active ownership

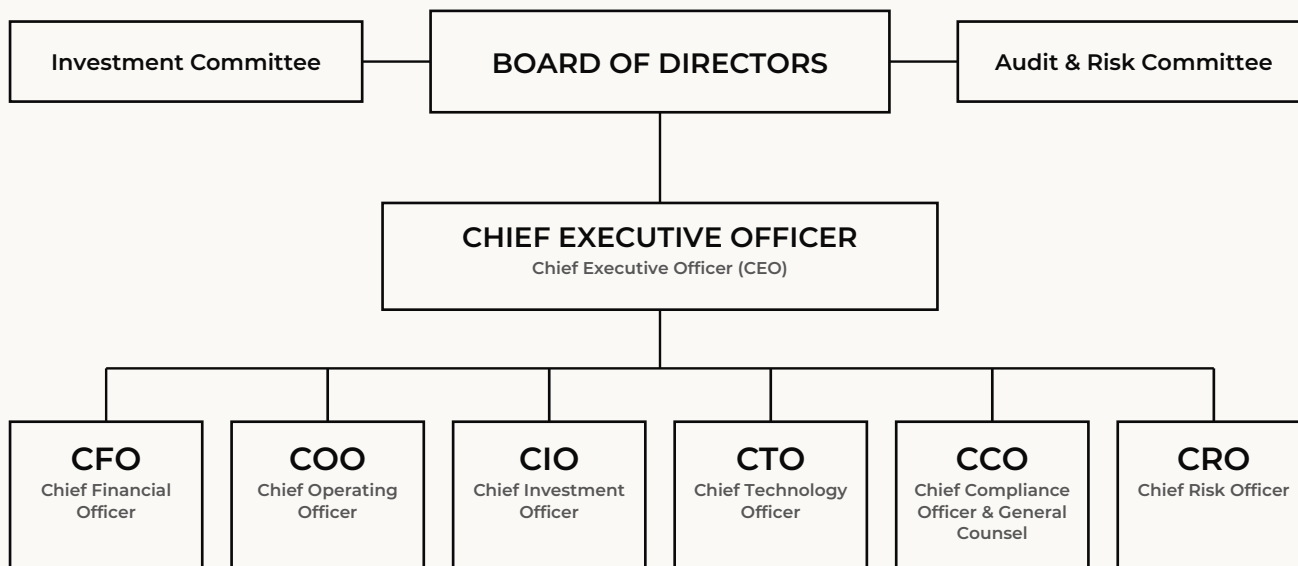

Close to the business - governance, senior hiring, capital strategy, network.

Long-term alignment

Incentives reward durable value created over years, not short-term activity.

Corporate structure

Leadership and governance functions of Cognitive Axis Investments L.L.C.

Investment coverage is organised across the eleven sectors, each underwritten to its own thesis.

GOVERNANCE IN BRIEF

- The investment decision sits with a committee, separated from any single individual.
- Risk and compliance are overseen independently of the teams that originate transactions.
- A risk-based AML & KYC framework, aligned with FATF standards and UAE regulation, applies to every counterparty.
